GRANTS NEWSLETTER

Office of Research Administration

New NIH Foreign Support Requirements

The impact of unwarranted foreign influence in research, especially at universities, remains a concern for U.S. officials and university administrators. Earlier in the year the White House Office of Science and Technology Policy (OSTP) published guidance focusing on unwarranted influence from foreign governments and foreign government sponsored programs.

Effective **25 May 2021**, use of updated "Biosketch" and "Other Support" format page templates used as attachments in current Forms-F application packages and RPPRs, will be required. This is also a reminder that organizations and researchers could incur "severe penalties" if the information submitted is incomplete or misleading.

If you have any questions, please reach out to the office of research administration.

Featured Grant Opportunities

COAL GRANTS

Annual Program Statement for Cultural Affairs

Furthermore Grants in Publishing

COE GRANTS

Small Research Grants on Education

Research-Practice Partnerships: Collaborative research for educational change
